

Finding Mom and Babies

If you discover a mom cat having babies on your porch or in an accessible place on your property...

1. **Do not wait!** Trap mama the same day you find her with the kittens- or else she will move them. Forgiven Felines rents traps or buy one at a hardware store.

2. Once you trap mama, you can pick up babies and reunite them. Even if you have never trapped before, it is possible!

There is a trapping video at www.forgottenfelines.org

3. Transfer mom and babies into a comfortable and quiet room or large dog crate. Be sure to transfer in a closed room.

4. Keep mom and babies together and feed mom plenty of wet food. Kittens can be weaned at 5-6 weeks.
