

PYOMETRA IN CATS

PROTECT YOUR FELINE FRIEND

WHAT IT IS:

- Serious uterine infection
- Affects unspayed female cats
- Uterus fills with pus
- Serious & life threatening
- Requires urgent vet care

SYMPTOMS:

-  Vaginal discharge
-  Increased thirst/urination
-  Lengthy/weak
-  Loss of appetite
-  Swollen abdomen
-  Fever

PREVENTION

- Spay your cat (best prevention)
- Spay before repeated heat cycles
- Avoid breeding if not necessary
- Routine vet checkups
- Seek care early if signs appear
